

# Meeting Street

## After-School Program

### **Program Goals:**

The main goal of Meeting Street's After-School Program is to provide a safe and positive environment for the students through the following:

- by enriching and empowering our children
- by building on their interests and strengths
- by applauding their achievements
- and by planning, coordinating, implementing and evaluating the After-School Program.

### **Program Objectives:**

The objectives of Meeting Street's After-School Program are as follows:

- Our students will grow socially through the *Responsive Classroom Approach* to teaching children social and academic intelligence.
- Our students will grow emotionally by participating in recreation activities with their peers and after-school leaders.
- Our students will develop and improve in homework skills to reinforce learning during homework groups.
- Our students will build on physical growth through organized gym and movement activities.
- Our students will be enriched by art, music and technology activities.
- Our students will develop good health and nutrition habits through snack and health supervision.

### **We will accomplish our goals and objectives through:**

- After-school leaders utilize principles and practices of *The Responsive Classroom Approach* providing positive social and academic learning opportunities for our students.
- Recreational games and activities to engage students in learning through play.
- Homework groups to promote student independence, confidence and increase in academic skills.
- Use of the gymnasium and playground for organized physical group and individual games and activities to promote physical and emotional growth.
- Provide organized and creative art, music and technology activities developed and facilitated by after-school leaders.
